

# What is Canvas?

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

The canvas element is a drawable region defined in HTML code with height and width attributes. JavaScript code can access the canvas through a full set of drawing functions allowing for dynamically generated graphics. The canvas element was introduced in HTML5. You can read more about the element at the following locations:
