

Where did they go today?

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Have you wondered where and how people leave off your site? Well, this one-page tutorial shows you how to setup a PHP redirection script with logging feature. You can use the script for link-based as well as form-based redirection while logging your visitors.
