

Widgetized Stickybar

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Widgetized Stickybar is a plugin for WordPress that allows you to add a highly customizable widget bar to your blog or website. As it is said in the title, bar contains widget areas, where you can place any widgets available in your WordPress dashboard. As an administrator you decide where to stick the bar: top, bottom, right or left edge. You also can customize size, colors, opacity, number of columns and other parameters of the bar. Widgetized Stickybar is a perfect way to extend functionality of your website. Widgetized Stickybar might be used as notification bar (just put text widget with required info) or social bar (put social buttons)!
