Email	{value_email}

WooCommerce wishlist plugin allows your customers to manage wishlists online. Besides managing wishlists users can easily save particular items in the cart which they can buy later. 'Add to wishlist' button appears before 'Add to cart' button so that end users can easily save items. The title of Wishlist button that appears throughout the site can be customized by the site owner, as well as the title can customize that appears in customer accounts. This is simply the most effective way for the business owners which they can use to reduce shopping cart abandonment.
