WonderBanner is an ASP banner program for you and your advertisers which uses an Access database. Your advertisers can access all statistics about their banners including: How many clicks, How many banner has been loaded, How many impression left to do,etc. It allows you to set advertising date limit, advertising click limit, advertising impression limit. You can also modify the width, height, add a border, a alt text, a text link for each banner and easily activate or de-activate each account. The program comes with category support and let you choose between asp code and html code for the advertising code.
