WordPress Social Board is the best choice for those who are looking for an easy way to combine all of their social networking activities into one single social stream and display on their website. With this plugin you can create a single combined social media stream including all of your social networks accounts with multiple social network profiles, and can display them in 6 different formats. It supports 13 and growing social networks and includes about 30 feed options. Your visitors can filter your social board by social network. You can also change the style of your board using the theme manager and/or custom CSS stylesheets, and make it unique to your website.
