

WP eBay Ads

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Allows you to insert a listing of related eBay products, on the single post page by using a custom field called ebay_search and either the shortcode [wpebayads] directly in your post or by inserting simple code in your template file. The listings are completely customizable according to parameters defined in the admin panel. If you include an eBay Partner Network campaign ID, you can earn money from traffic you drive to ebay! Also allows you to share revenue with your authors on a multi-author blog. Creates a custom field on the author profile pages so they can input their campaign ID. Whoever wrote the post gets credit in the listing.
