WordPress Signup To Read is a wordpress plugin which enables you to gain more members to your website. The plugin ads a shortcode for you [wp_signup_to_read] which "hides" the content for non logged in website guests. This is by default integrated with wordpress standard membership system but can easily be integrated with any other plugin by replacing one line of code. (all instructions in the zip file). Plugin admin panel allows you to configure the following: Signup Link style which guests see : basic text anchor or image/button Setup signup link destination : standard wp or custom Link text (can be in your own language) if basic text anchor is chosen Upload button/image file Message (can be in your own language) which guests will see to encourage joining your website before being able to see the rest of the content
