

WSN Links

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Built to be completely flexible yet still easy to use, WSN Links can be customized into a directory for any sort of item but comes configured for links. Verify reciprocal link partners automatically. Submit RSS feeds to automatically add their links to the site. Easily translate into any language. Take advantage of the many SEO features like url rewriting and google sitemaps. Turn your traffic into cash with the sponsorship system. Add unlimited custom fields to handle whatever data you wish to collect. Display any data flexibly with toplists. Integrate into most other MySQL-based member systems. Run a link exchange directory. The possibilities are virtually endless, and the automated updates will bring more every week. Also available as a wordpress plugin.
