

X-cart add on: Customer search, export and emailer

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Search and find all customers who have placed X number of orders over any given time. This allows you to find your loyal and repeat customers with ease. Then send them an personalised email automatically. Search and find all customers who have used your discount coupons. Perfect for finding those bargain hunters who are very likely to use more coupon offers. Login Search, this will find all customers who logged in between specific dates. It will even extract all customers who bought once from you and never logged in again. Excellent for seeing who is active on your site and who isn't. Big Spender search, find your biggest spending customers via Order total, Subtotal and even shipping. Great for contacting who is responsible for making you the most money. Search and export and email customers based on their billing address, delivery address, city, country and even company. All searches allow you to export the emails to the personalized email sender so you can sent to targetted customer groups quickly.
