X-Stats for phpShop

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This module tracks every hit to every page for your phpShop & records the users IP, the page they are looking at, where they came from, what browser/os they use and the time & date. From this information this program allows you to analize the following: track visitors (lists every visitor & every page they visited), top products, top pages, top entry pages, top exit pages, top referers, top user addresses, browser share, os share, and graphs for hits & page views for days, weeks, months and years. Also includes the ability chat live online with your shoppers.
