Xceog WhoIsOnline

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script allows you to display a real-time number of people currently on your website. It makes use of the unique ip addresses assigned to the computer. A 1 minute refresh is set as default although it could be changed later. It is easy to use and fast to install. Just a few configuration and it will be good to go!
