Mobile Number	{value_mobile_number}
Email	{value_email}

TWO FOR ONE! This download includes both a black text/white background and a white text/black background version. The countdown timer is equipped with a dynamic heading that changes to "Times Up" when the counter reaches zero and displays the below text in the "doneText" parameter. It also makes the timer clickable to the URL in the "link" parameter below. New in V2 - you can now show or hide the milliseconds in both timers via an XML parameter. The parameters are defined as follows: showDays | This parameter is used to show the Days spot in the countdown. Set to "true" to show the days remaining NEW V2 FEATURE: showMS | This parameter is used to show the milliseconds spot in the countdown. Set to "true" to show the milliseconds and "false" to hide them. y = year | four digit year (ex. 2009) m = month | zero-based numeric value for desired month (Jan = 0, Feb = 1, Mar = 2, etc.) | NO LEADING ZEROES d = day | number value for day ...
