XML News Reader

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

XML News Reader Features: Usage 1. Embed into your HTML page, simply copy and paste the code in the provided preview HTML file. 2. All in one clip, drag and drop into your flash project. 3. Load dynamically, the code will not interfere with your swf holder. 4. XML file is UTF -8 Encoded to allow for special characters XML Driven 1. You can change the following settings for each news in the xml file: - Year, month and day - Thumbnail and main image - Short description for each news - Main description for each news - Both short and main text for each news are HTML formated, so you can easily format your text using HTML tags. 2. The text for the "Read more" and "Back to list" is also imported from xml, so you can change those if you use a different language
