

XPAND Events Calendar

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

XPAND Events Calendar is an ASP component that enables you to add and display your important meetings and events using a graphical user interface and a database. This ASP component (dll) comes with a default access database with all the required tables, so that you can use it without requiring any database. EventCalendar also allows developers to use their own database - Access (97 through 2000), Oracle8i and SQL Server 2000.
