Mobile Number	{value_mobile_number}
Email	{value_email}

XVideoOCX allows easy integration of real-time video capture capabilities into your applications. The control supports most WDM-capable video devices such as USB- cameras and frame grabbers, as well as AVI sequences, screenshots and image files as image sources. With just a few lines of code, you are ready to display and access video images. Applications for XVideoOCX range from scientific image processing to surveillance and multimedia webcams.
