Features ColdFusion Developers will Appreciate. 2simplifi eStore is delivered as 100% open source ColdFusion code. The application has recently been redeveloped with faster implementation and replication in mind. By following the installation directions and reading the explicit comment tags in the ColdFusion files, ColdFusion Developers will be able to successfully implement e-Commerce Solutions in as little as 1-2 hours. (not including product development and design alterations) ::: PayPal Enabled ::: Sell all types of products including downloadable files, such as .exe, .zip, MS Word, PDF Files etc. ::: Uses United States Postal Service (USPS) API for real time shipping charges based on total weight of shopping cart, or Flat Rate or Total Price Span shipping options.
