

A-POW: Chameleon Java Menu System

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

It is a powerful menu solution for your web site navigation. You can create beautiful design of menus and still make changes in labels, design of Menu-Items and/or whole menu structure by easy way. The applet's appearance (such as colors, fonts, image background, icons, sounds, text alignment, all for each Menu-Item separately or globally) can be fully customized to fit your website needs.
