Advanced Menu

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

The Advanced Menu Magento module allows you to quickly change the look of your store's navigation. Without this simple extension, you would need to thoroughly understand PHP and HTML (not to mention have tons of time to spend changing the default option) in order to alter your navigation bar. With Advanced Menu, you can implement any one of several navigation options that have been expressly designed to fit stores of differing sizes and themes.
