AJAX ASP.NET AutoComplete Control (Facebook like)

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

ConvincingMail AutoComplete is an ASP.NET AJAX extender that can be attached to any TextBox control, and will associate that control with a popup list to display items that returend by the webservice for the prefix typed into the textbox. The list with suggested items supplied by a web service is positioned under the textbox.
