

Ajax calendar class

| | |
|-----------------------|------------------------|
| Address | {value_address} |
| Contact Person | {value_contact_person} |
| Mobile Number | {value_mobile_number} |
| Email | {value_email} |

This class can be used to display month calendars browseable using AJAX. It can generate HTML and JavaScript to display a month calendar with links to browse the months using AJAX to avoid page reloading. The class can make given days be displayed as links to event pages. The browsing may be restricted to given dates. The months and week day names are customizable. The presentation details may be customized using CSS.
