It is developed in Php and Mysql database, Readymade Business to Business Script which provides opportunity to start your own portal online. It is very easy to access and no programming required. Alibaba clone script also supports multi level hierarchy. A user can create number of categories, sub-categories. Every company can post their products from adding products. It also provides facility to update company information like about us, contact us etc. Buyer who feels something interesting and want to post their requirement, they can freely post here. It is the best and easy way to make advertisement of your products in the market without going anywhere. In this advanced era, it is the best way to start your own trading portal. It is fully based on security. Fully customize colors and graphics of this site make it very attractive and special.
