Email	{value_email}

EPal Pro is a full featured software which rides on the widely adopted e-payment facility - Paypal. Currently Paypal takes care of payment transactions on an account-to-account basis only. EPal Pro complements Paypal by extending the payment service from e-payment to 'physical' money delivery.This happens when your users want to send 'physical money' such as MONEY ORDERS, CHECKS DELIVERY, BANK TO BANK TRANSFERS OR ANY OTHER PAYMENTS to their designated recipients who do not own a Paypal account. With EPal Pro, you start your own online business allowing you to charge your users a service fee for the payment services you offer just like Payko.com
