Mobile Number	{value_mobile_number}
Email	{value_email}

apChoiceMenu presents a well-known pop-up menu of choices. The apChoiceMenu can overlap not only HTML contents but also can pop up over form elements, frames, flash, and even go over the browser window. The applet supports fonts, colors, sound, javascript calls, target frames. Very small (~2kb), easy-to-use and free. Java source code is available.
