ASP.NET Barcode Web Server Control

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This web server control will easily add barcodes to ASP.NET web applications including solutions created with Visual Basic.NET, C# and Borland Delphi for .NET. The barcodes will dynamically appear in the web browser as high quality GIF, JPG or PNG images. This web component supports several linear and 2D barcode types including Code 128, UPC, EAN, GS1-128, ITF, Intelligent Mail, Code 39, Aztec, PDF417, Maxicode, QR-Code and DataMatrix.
