

# Auction Factory - Auction System for Joomla.

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

Auction Factory supports all common auction types including also Proxy Bidding. Auctions are supporting the usual Bids and BuyItNow features. Also they can be set as Private (bids are hidden to the public) or Public (bids are showed to the public). Among other options there is also the possibility to set up a auction as Automatic (winner will be automatically choosen) or Manual (the offertant will have to choose a winner). The component is provided with an installation kit; by performing the easy setup you will have in minutes a fully functional Auction Site. The interface is very user friendly and you can track easily auctions and bids. In the backend panel, various administration features have been provided in order for the admin to maintain control of the site and survey the auctions and bids.
