Based on the osCommerce core shopping cart, Autoload was built by shop owners who have tried several other shopping cart scripts before deciding to create Autoload. It's everything you need added to osCommerce for running an online storefront and eBay management utility. Emphasis has been placed on keeping the script universal in that it will work with other applications, in several languages completely, and with long-term goals for serious website owners in mind. You need a machine that works, Autoload is that machine. New: \* Added Quickbooks import functionality \* Improved Auctionblox eBay management tool integration \* Improved search engine optimization \* Improved PayPal IPN notifications \* Customers no longer need to join PayPal to order \* New attribute sets tool \* 3 new configurable categories menus options \* Easier installation procedure Google Base store export and Easypopulate improvements \* Google Adsense infobox installed for showing your ads
