Automatic Product Callouts

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The aheadWorks Automatic Product Callouts extension allows you to organize your top Product sets in blocks anywhere on your store's site. Though this extension is most commonly used to enable an automatic Category landing page that lists the category's top products, it can also be used for similar outcomes elsewhere on your site.
