Start now your banner exchange web site and earn money from selling banner credits or ad space. Your members show banners on their sites and in return their own banner is displayed across the banner exchange sites for free. You can easily setup many functions like the banner ratio, bonus credits and referral signup credits. This php script also offers the possibility to manage your site ad space through a seperate system. A further highlight is the contact form including captcha security image to prevent spam. New in version 2.0: Switch between six site style colors (blue, ice, lime, orange, purple and red). In the admin panel you can manage for example members, referrals and banners.
