This scroller is placed on home content and brands are shown with images. By default PrestaShop does not display images with brands and also does not show them on home content. This PrestaShop Brands Module displays brands in a scroller on home page within home content. The default functionality is not like this, instead by default these brands are displayed in form of list and not in the home content. Secondly these brands are displayed with images and that is another cool functionality which is not present by default in PrestaShop. Here are the key benefits you get by using this tool on your website;
