BugBrother

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

BugBrotherTM is web-based application, allowing development teams in different locations to share bug and defect data 24 hours a day - from any computer - regardless of platform or operating system. All defect data is stored in a centralized database, creating a searchable, sortable, historical archive from which development teams can identify urgent and related bugs.
