CGIResource.de Supportsystem

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The CGIResource.de Supportsystem is a Ticket-ID based support system. Users can add their questions, have full control of their tickets and can access their status anytime. The admin receives the mail and answer the question via Web. The script requires MySQL and some other Modules. You can change the design easily and change the names of the CGI-Files.
