CHAOS For Security

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

CHAOS For Security is compact, efficient and user friendly program that allows you to encrypt and compress individual files and folders. Required cryptographic procedures are enforced in the new graphical user interface. Files are compressed before they are encrypted to ensure minimum file sizes. Utilises extremely secure method of encryption.
