ColdFusion Poll

Address   {value_address}
Contact Person   {value_contact_person}
Mobile Number   {value_mobile_number}
Email   {value_email}

This poll system allows your website visitors to answer any questions you may ask them while checking for possible errors when processing. The code checks for attempted multiple entries, voting without selecting an answer and more. The administration side of the poll is also covered in this tutorial.
