

Contact Form With reCaptcha

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Ajax contact form with Google reCaptcha anti boot, anti spam system. Responsive width, fits nicely on mobile devices too. Easy to customize styling, includes a separated .css file. You can easily add new input boxes (e.g "city", "address", etc), the new data will be sent automatically. Easy to integrate in your site, just upload the provided files on your site and paste these two code lines where you want form to appear:
