

Create a Column Graph

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script will create a column graph from a serie of number as for example 4,5,6,5,4. You may set up dimensions of the graph and the script will automatically calculate the maximum values for X (length of the serie) and Y (maximum value from the serie of numbers).
