csLiveSupport :: Web based, LIVE, customer support system!

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

csLiveSupport is a live customer support application that lets you interact with your customers in real time. Your web site visitors can contact you immediately, live, using only their web browser. If they have a question while they are looking over your site, all they have to do is click the image that says you are online. They are immediately connected to the csLiveSupport control panel where they can chat with a representative of your organization in real time.
