Custom SMTP

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

We regularly use the Custom SMTP extension in our work and can assert with competence that intuitive and user-friendly interface of the Custom SMTP Magento module allows you to spend no more than 1 minute to set up the software and send emails from any server you require. With Custom SMTP flexible settings you can configure this Magento extension in such a way that emails won't be sent but you will be able to view them exactly from mail log in admin panel. The Custom SMTP module by aheadWorks is an irreplaceable and indispensable tool for developers which offers you the following useful features: Custom SMTP server usage Custom port, authorization type, secure protocols support Log of all outgoing emails Possibility to view any outgoing email
