Cute Editor for .NET - ASP.NET HTML Editor

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

(New Version 6.6!) Cute Editor for ASP.NET is by far the fastest, easiest, most powerful WYSIWYG (What You See Is What You Get)browser-based HTML Editor for ASP.NET. It enables ASP.NET Web developers to replace your standard Textarea to a rich textbox. This rich editing tool empowers end users with an intuitive, easy-to-use interface for creating and publishing web content without relying on any client-side components or controls. Cute Editor has more than 10,000 customers, and has been sold in over 60 countries. 23 languages are supported, and more are being added.
