Date Dependent Content

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The author notes "Displaying content depending on what the current date value is a powerful and effective tool that adds value to any website. Whether it is to showcase a limited time offer, or to "automatically" update pages with new content while you're miles away." This example code repeats the process to three times to demonstrate the full effects of date dependent content.
