Delivery Date during Checkout for Mangeto

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This extension makes it convenient to manage delivery schedules both for you and your customers. The extension enables Admin to: * Specify the days that are available for delivery; * Specify the time that is available for delivery; * Set minimal interval between the order and delivery date; * Add holidays to the calendar, so that the customers won't be able to choose holiday dates for delivery; * Indicate time after which same-day delivery is unavailable; * Disable next day delivery; * Filter and sort orders by delivery date. * Edit delivery date and time in order details;
