

Developing a Shopping Cart in ASP.NET

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

In this tutorial we are going to develop a simple shopping cart consisting of two pages, an order page, where your user will be able to check the available merchandise and order the same and the second is a cart page, where the selected items will be shown in the cart.
