DHTML week planner

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This DHTML scripts makes it easy for you to handle your appointements directly on your web page. Create new appointments by dragging from start to end. Move them by drag'n drop and edit them directly on the page. Ajax is used to send your changes back to your server where it could be stored in a database.
