Discount Code module for osCommerce

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Discount code module allows you to assign a discount code to a product, category (for each product of this category) and total order. You can specify a fixed discount rate or a percentage of the total order, set expiration date and minimum order amount for a discount code. Customer gets a discount by clicking a link or inserting the discount code while checkout. The link containing the discount code (http://www.yourshop.com/?discount_code=12345678) is especially convenient for newsletters sending out and promo campaigns conducting. Screenshots are available at http://high-quality-php-coding.com/.
