DownloadManager

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

DownloadManager fully supports multi-part downloads, streaming support, download pausing, and download accelerators (like DownThemAll or SpeedBit DAP). DownloadManager also has the option to force a limited download speed per file or through a unique, limited download speed link. DownloadManager has the option to create a one time use download link, download once, and the link is no longer valid. DownloadManager keeps track of all downloads and the amount of bandwidth used. DownloadManager will graph downloads for all files or for the selected using Flot. DownloadManager has support for multiple users, create, edit, and delete users.
