

Drop down hierarchical JavaScript menu

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

A small sized hierarchical drop down menu, specially designed for displaying large hierarchical structures. It supports IE4+ NS4.05+ NS6 Opera5+,Mozilla. You can specify the icon and color for each item in the menu. The menu supports vertical and horizontal alignment. Menu supports absolute positioning and can be upgraded to relative positioning. A lot of animation effects is possible. It can be easily created directly from hierarchically structured data base. Icon image rollovers; frames support; javascript: URL support; bold, italic, underlined text styles, individual menu item dimensions.
