

Dropdown Menu for phpBB2

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

An easy to use extension of the udm4.com ultimate dropdown menu for use on all phpBB2 installations. Easy to install and configure. Step by step instructions. Dynamically populates the drop down menu with forums and sub-forums in your phpBB2 installation. Can be modified to include last 10 posts, or other features you deem necessary. Based on the accessible and search engine friendly udm4 drop down menu. Very extensible menu with easy configuration and installation.
