Dynamic Tools Ajax Script

Address {value_address}

Contact Person{value_contact_person}Mobile Number{value_mobile_number}

{value_email}

Starting out with Ajax can be a bit daunting. A lot of the scripts you'll find aren't threadsafe, can only send get requests or just plain aren't flexible. This script allows you to send an Ajax request with just a single line of code and handling the response is a breeze!
