Easy Availability Page Software

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Easy Availability allows complete web novices to install and maintain 'availability' pages for their rental properties. Cheap to buy, and with no recurring fees, it's the obvious alternative to the expense of paying someone else to maintain 'availability' pages for you. Comes in two versions: 'Single' & 'Multiple' Property. Administered through a standard web browser. Uses a flat-file database, so no complex MySQL setups needed. Once installed, can be updated in minutes. Highly configurable and customisable by anyone, even those with no knowledge of HTML.
