

## ESC (ECMAScript Cruncher)

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

ESC is an ECMAScript pre-processor written in JScript, enabling an unlimited number of external scripts to be compressed into supertight, bandwidth-optimized packages reducing the overall size of your code with up to ~45%. Single, multiple scripts and even directories with scripts can be merged together at the compression level you decide.
